Bashayer Bamarhul

Advisory Intern

bashayerbamarhul@gmail.com +966 530053659 Jeddah, Saudi Arabia Portfolio Link

PROFILE

Recent Computer Science graduate from King Abdulaziz University with First-Class Honors, a 5.0/5.0 GPA, and first rank in class. Strong academic foundation in software engineering, systems analysis, database management, and digital product development. Brings analytical thinking, structured problem-solving, and an understanding of user-centered digital solutions. Seeking an Advisory Internship to apply academic knowledge, support research and analysis, and contribute to technology-enabled business solutions.

EDUCATION

Bachelor of Computer Science 01/2022 – 06/2026
King Abdulaziz University Jeddah, Kingdom of Saudi Arabia

- **Academic Excellence:** GPA 5.0 / 5.0 (First Class Honors — Ranked 1st in Class)
- **Relevant Coursework:** Software Engineering; Systems Analysis and Architecture; Database Management Systems and SQL; Data Structures and Algorithms; Object-Oriented Programming; Web Development.

PROJECTS

Base360 Landing Page , Company Profile & Admin Dashboard , Electronic Contracts Platform

- Designed digital interfaces, wireframes, and user flows using Figma.
- Applied user-centered design principles to present information and support administrative workflows.
- Created interface concepts and design deliverables for web-based products.

SKILLS

Analysis and Problem Solving
Analytical thinking, requirements analysis, systems analysis, structured problem-solving, technical documentation.

Backend and Databases
Node.js, NestJS, PHP, Laravel, SQL, MySQL, relational database modeling.

Digital and Software
React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI, Vite, REST APIs.

Design and Collaboration
Figma (wireframing, prototyping, user flows, design systems), WCAG accessibility, Git, GitHub, Agile/Scrum.

COURSES & CERTIFICATIONS

UI/UX
Tuwaiq Academy
Beginner 2-hour course on UX/UI fundamentals, completed via the Satr e-learning platform.

UX Research & Planning
Tuwaiq Academy
Beginner course on UX research and planning fundamentals, completed on the Satr platform.

Python Classes and Inheritance
Coursera
University of Michigan course on object-oriented Python: classes, inheritance, and code structure.

Introduction to Data Science in Python
Coursera
University of Michigan course on data science basics, including data manipulation and analysis with pandas and numpy.

Python Functions, Files, and Dictionaries
Coursera
University of Michigan course on functions, file handling, and dictionaries in Python.

Python Basics
Coursera
University of Michigan course on Python fundamentals: variables, control structures, loops, and basic logic.

Data Collection and Processing with Python
Coursera
University of Michigan course on collecting, cleaning, and processing data in Python.
